OFIX VP

THE ANALYSER THAT HANDLES TREATMENT TOO

FULL WATER ANALYSIS

Ofix VP provides a real-time analysis of your water's core quality criteria, giving you total peace of mind. Keep an eye on the water pH, RedOx levels, and temperature so you can adjust it whenever you need to.

COMPACT AND UNIVERSAL

The Ofix VP analyser is installed directly onto the 50mm pipe in your technical room. Simply cut out 20cm of pipe and install the full water treatment analyser. You don't even have to worry about compatibility with your pool cover.

AN ADAPTABLE SOLUTION

By connecting the Ofix VP to your Daisy VP dosing pumps, your analyser can become a genuine automatic water treatment tool. In this way, you can enjoy smart management of your pH regulation and your chlorine pump/regulator.

SAY GOODBYE TO YOUR TESTING STRIPS AND ENJOY YOUR POOL!

No more time spent dipping a test strip into your pool every week when you could be enjoying the water. With OfixVP, you have real-time temperature, pH, and RedOx information at a glance.

Fine-tune your treatment and avoid any chlorine and pH regulator over-doses – you're guaranteed to save money throughout the season!
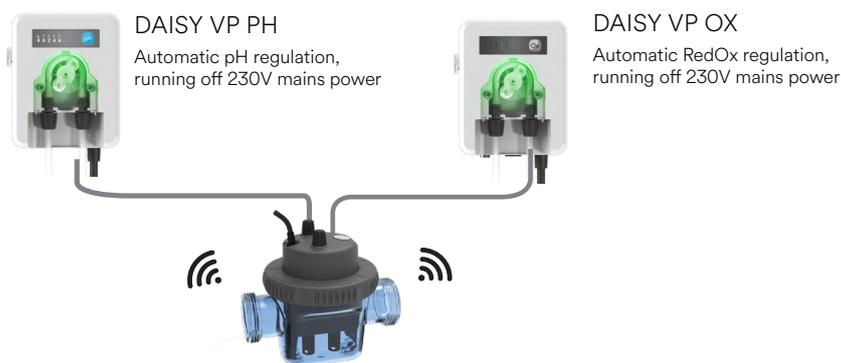

Flow-switch

pH probe

Temperature probe

RedOx probe

SWITCH FROM ANALYSER TO AUTOMATIC TREATMENT

By combining your Daisy VP dosing pumps to your smart analyser, you can transform your monitoring system into a full water treatment installation.

The two dosing pumps, connected wire-lessly to your Ofix VP, use the information measured by the analyser to treat your pool water.

Two slots have been left open for injectors running directly into the Ofix VP, so you don't need to modify your piping! Installation is quick and simple.

DAISY VP PH
Automatic pH regulation, running off 230V mains power

DAISY VP OX
Automatic RedOx regulation, running off 230V mains power

POOL-COVER COMPATIBLE

PROTECTED FROM THE ELEMENTS (RAIN, ALGAE)

DOES NOT ENCUMBER YOUR POOL

VIGIPOOL : A TECHNICAL ROOM ON YOUR PHONE

Vigipool is the new smartphone app that lets you control your technical room from the palm of your hand. Using this app, you can centralise the devices i your technical room and manage your Wi-Fi connected tools wherever you are in the world. With Vigipool, you can access the various measurements provided by your Ofix VP and enjoy real-time access to your technical room. Track your measurements, view your user recommendations, and configure your pH and RedOx regulation devices using the Vigipool app.

AN ADAPTABLE SOLUTION:
For even greater functionality, add Vigipool-compatible devices to your techni- cal room and enjoy even more functions on your app (filter management, LED projectors, etc.).
